EXCEPTIONAL SOLUTIONS™

Contract Government Services

CITY HALL

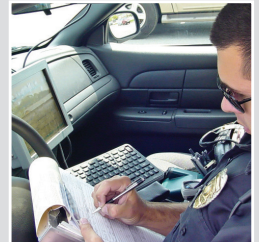

Calvin, Giordano & Associates, Inc. (CGA) has more than 76 years of continuous experience with public agencies. We are committed to providing increased efficiencies and productivity while reducing costs. The realization of Contract Government Services has increased substantially as a practical approach to managing complex municipal operations. CGA has the ability to seamlessly integrate into an existing municipality or assist in the structure and implementation of responsibilities of a newly formed municipality.

As an independent resource, CGA will tailor services and personnel to suit the particular public sector client. CGA can provide a full-service department or a la carte services, with specific personnel and services on call for the precise needs of the municipality or governmental agency. Whether all or a portion of services are contracted to CGA, the key to success for the client, the citizen and CGA is that the municipality remains in control of those services. CGA, as the contract service provider, takes direction from the in-house staff and appropriate appointed administrator.

CGA has developed its own operating software INKforce to automate building code, code enforcement, fire inspection and business license services. The time and cost to provide services is reduced, and customer service and results are improved.

CGA provides government clients with handpicked teams of professionals in a cost-efficient, yet technological effective support process, matching talent to precise needs. These services include:

- Building Code Services
- Coastal Engineering
- Code Enforcement
- Construction Engineering and Inspection
- Data Technologies and Development
- Emergency Management Services
- Engineering
- Environmental Services
- Facilities Management
- Indoor Air Quality
- Landscape Architecture
- Planning
- Redevelopment and Urban Design
- Surveying and Mapping
- Transportation Planning and Traffic Engineering
- Water Resources Management
